

THOUSANDS GIVEN FOOD

Authorities Distribute Food to Thousands of Destitute Men, Women, Children.

HARDSHIPS ARE ENDURED

50,000 People are Incamped at Presidio. 200,000 In Golden Gate Park, and 100,000 in City's Vacant Blocks--Supplies Coming in.

SAN FRANCISCO, April 20.—The problem now confronting the city government and federal authorities is how to feed the multitude of destitute. Supplies are coming in by the boat load, but the system of distribution is not yet complete. At the Presidio 50,000 people are camped and affairs are conducted with military precision. Water is plentiful and rations were dealt out all day long. Refugees stand patiently in line and not a murmur is heard. This character is observable all over the city. The people are brave and patient and the wonderful order preserved by them has been of great assistance.

200,000 In Golden Gate Park

In Golden Gate Park are encamped 200,000. They are being taken care of. A huge supply station is established there and provisions are being dealt out. Probably 100,000 more people are camped on vacant lots and squares scattered about the city and these are the unfortunates which are hard to reach.

Banks Will Open Up

The banks have not yet decided what to do. In all cases the vaults are intact and as soon as quarters can be provided business will be resumed. Six hundred men from the ocean shore railway will arrive tonight with wagons and implements to commence immediate work on the sewer system. Inspectors are going from house to house examining the chimneys and will issue permits to build fires.

Although every effort of the relief committees was bent to appease the gnawing hunger of the destitute thousands, there are tonight many persons either without sufficient food or entirely without it. The government officials took charge of every grocery store still standing and gave out food. Bread lines were established at Fillmore and Turk streets at the Golden Gate Park, and the Presidio, and every person who stood in line was given a whole loaf. The line at Fillmore and Turk streets was four blocks long all the afternoon.

People Are Quiet

There were no disorders when the hungry thousands were told to form in line and receive bread and canned goods. All were content to wait their turn. Silk hatted men of affairs followed good naturedly behind the Chinese and took their loaf from the same hand. Soup kitchens were established in the streets and many hungry persons were fed.

NEW YORK, April 20.—In the vaults of the United States Trust Company of San Francisco which was blown up by dynamite, according to the Tribune, was the sum of \$2,000,000 representing the residue of the estate of Mrs. Leland Stanford, the widow of Senator Stanford. The executors of Mrs. Stanford's will on April 6 turned over to the trust company \$2,000,000 to hold as trustees for the legatee until suit in the court which will decide the amount of inheritance tax to be paid, shall have been settled. There are several heirs now wondering if their inheritance has been lost to them.

Small Insurance Companies Fail

CHICAGO, April 20.—It was declared last night by Chicago insurance men that many of small accident and fire companies probably will be forced to suspend business because of their enormous loss in San Francisco. Even some of the bigger companies will be hard pressed. The total amount of liability involved now is placed at more than \$80,000,000 in San Francisco alone. This amount which the fire insurance companies will be called upon to meet is considered conservative. Added to the losses in San Francisco will be at least \$50,000,000 loss to be met in other cities. Insurance men here are worried to a degree bordering on a panic.

Valuable Paintings Lost

NEW YORK, April 20.—The Tribune today says: The Metropolitan Museum of Art has lost in the San Francisco fire nearly all of the paintings bequeathed to it by Collis P. Huntington. The fire destroyed the old Collis P. Huntington house. Mr. Huntington spent years in acquiring this collection when he died the best pictures in his collection were willed to the Metropolitan Museum. A condition in the will, however, left them in the possession of the family during the lives of Mrs. Huntington and Archie M. Huntington.

These catastrophes draw human beings closer and bring home to us a feeling of solidarity that must grow deeper when such overwhelming blows plunge a nation with which Germany is so intimately bound into deep mourning.

All the German papers comment in a similar manner.

GOT HIS HAIR BACK.

Was Perfectly Bald When He Started to Use Newbro's Herpicide.

Frederick Manuell, Maryland Block, Butte, Montana, bought a bottle of Newbro's Herpicide, April 6, '06, and began to use it for entire baldness. The hair follicles in his scalp were not dead and in 20 days he had hair all over his head. On July 2 he writes, "and today my hair is as thick and luxuriant as any one could wish." Newbro's Herpicide works on an old principle and with a new discovery—destroys the cause and you remove the effect. Herpicide destroys the germ that causes dandruff, falling hair, and finally baldness, so that with the cause gone the effect cannot remain. Stops falling hair at once and a new growth starts. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.
